Job description

A TV Production company in Randburg is on the search for a dynamic and creative **Mid-Level video editor** to play a role within our multi-platform post production team.

Requirements / Experience :

- Minimum of 3 years working experience
- Proficient user of Adobe Premiere Pro and Media Encoder
- Diploma or Degree in film/video/media related Field or equivalent experience
- A good understanding of video and audio production and editing techniques.
- Excellent time-management skills for meeting deadlines in a fast-paced environment
- Strong communication skills (verbal/written)
- Strong attention to detail
- Proactive, self-motivated and positive collaborative team spirit.
- Good sense of timing, music selects, video formats and story telling
- Experience with motion design and relevant software is an advantage but not a necessity
- Highly organized, detail-oriented and able to take direction from multiple sources
- Eagerness to learn new editing techniques & remain up to date on new & innovative video content trends

The ideal candidate should have a good understanding of the TV Production industry and be passionate about story telling.

A key understanding of the client revision process — and working through revisions diligently.

As a Junior Video Editor you will be assigned multiple projects every week, with strict deadlines, and expected to self-schedule time in the office to complete projects in a timely manner.
